## PCI compliance

Northland Pool Management Company is Payment Card Industry Data Security Standard (PCI DSS) compliant. This is a set of requirements designed to ensure that all businesses that process, store or transmit credit card information maintain a secure environment. That means if you accept card payments, you must be compliant with these requirements.

Our Heartland Secure technology eliminates Payment Application Data Security Standard (PA-DSS) and minimizes PCI scope by encrypting card data within a secure acceptance device, taking the card data out of the transaction and the business' systems. No card data. No risk.
